

Multihog[®]

One Machine - One Driver - Endless Applications

Front Sweeper MKS 600

- Front-mounted sweeper & collection container, suitable for MH/MX ranges
- Ideal for municipalities, maintenance contractors and facilities management companies
- 2300 mm (90 in) working width
- Diameter of sweeping brush is 600 mm (23.5 in), and it can also be used as a snow brush if required
- Comes complete with 200 litre (53 US gal) water spray system for dust suppression
- Dirt collection capacity is 355 litres (12.5 ft³)
- Rotary side brush can be added for extra sweeping capability and accessing
- All functions of the sweeper are hydraulically controlled from within the Multihog cabin - ensuring the operator remains warm and dry

Due to our policy of continuous improvement, specifications may change subsequent to publication of this sheet.
