

Multihog[®]

One Machine - One Driver - Endless Applications

Salt Spreader MHGSS/MXGSS

- Rear-mounted salt spreader for use on our MH & MX tractor ranges
- Both dry material and wet salt spreader models are available
- Flat hopper design for optimum visibility and travel safety
- Manoeuvrability is not affected thanks to the very short overhang of the spreading chute
- High proportion of stainless steel parts ensures longevity and low servicing costs
- Various speed-sensing controllers available, featuring auto stop technology to prevent spreading when the Multihog is stopped (e.g. in traffic)
- Adjustable spread rate for material from 12.2 - 100%
- Adjustable spread width from 1 - 8 metres (3 - 26 ft)
- Hopper capacity varies from 1 - 1.3 m³ (35 - 46 ft³), depending on model

Due to our policy of continuous improvement, specifications may change subsequent to publication of this sheet.
