

### Scrubber Deck SD 1400

- Works in conjunction with the Multihog CV 350 sweeper chassis (suction required).
- Ideal for wet cleaning of large flat surfaces (squares, streets, paths, multi-storey car parks).
- All soiled water is collected via wide suction head on the Multihog.
- Scrubber deck consists of 3 brushes with overlap.
- Brush plates are arranged in triangular shape, for better cleaning in corners and around columns.
- Brush plates have integrated height compensation and adjustable surface pressure.
- Scrubber deck has short front dimensions and does not elongate machine unnecessarily.
- Integrated detergent tank in the scrubber deck operates with automatic dosing.
- Operational speed of ca. 0.5 - 4 km/h (0.3 - 2.5 mph), depending on the degree of soiling.
- Working width: 1400 mm (55 in).
- 200 litre (53 US gal) fresh water tank on Multihog and 35 litre (9 US gal) detergent tank on deck.
- Cleaning ability per hour: ca. 700 - 5500 m<sup>2</sup> (837 - 6578 yd<sup>2</sup>), depending on the degree of soiling.
