

### Street Cleaner SC 200/50

- The street cleaner attachment comprises a surface cleaning deck, hand lance & pressure washer for sanitation of facilities, theme parks, zoos, hospitals, universities and schools.
- Use the surface cleaning deck to remove stubborn stains, then follow up with pressure washer to wash away any dirty water.
- Can be used on any Multihog tractor, but is ideal for use on sidewalks, promenades, bike paths and greenways when fitted on the CX model.
- Max. pressure 200 bar (2900 PSI) and 50 litre/min (13.2 gpm) water flow.
- Stainless steel surface cleaner uses 3 spinners and has a working width of 120 cm (48").
- Hand lance is 15 m (49 ft) in length and is ideal for disinfecting handrails, bus shelters, trash cans, supermarket trolleys, car park paystations/barriers, etc.
- Water tank capacity varies from 1000 - 1500 litres (264 - 396 US gal), depending on tractor model.
- The front spray bar has a working width of 140 cm (55") and can be angled hydraulically from within the cabin. Wider spray bar is available at 165 cm (65").
- Optional sewer kit includes a 1/2" sewer nozzle suitable for cleaning and unclogging 60-400 mm (2 - 15") diameter drains.
- Optional detergent injection kit adds detergent or disinfectant to the water flow of the front spray bar or hand lance (dilution rate is adjustable).
