

FUNCTIONALITY & FLEXIBILITY

IBAK tractors are designed and engineered to be compact and heavy allowing you to work in a variety of pipeline environments. While each tractor has its own unique strengths, you can easily make your decision based upon the expected inspection length required and the diameter of pipelines you will be inspecting. Compact, powerful, durable and agile, the T66 and T76 tractors will provide you with years of dependable operation.

T66

Small and agile, yet more powerful than other brands twice its size – the T66 tractor is the core of an effective inspection system for pipelines ranging from 4" (100mm) to over 24" (600mm) in diameter.

T76

The T76 has the broadest range of any tractor system capable of inspecting pipelines 6" (150mm) and up, and also accepts the LISY® Lateral Launch attachment making it a complete mainline and lateral launch solution.

T76 HD Tractor + ARGUS® 6 Camera
Equipped with Large Pneumatic Tires

Wheelsets can be changed quickly, making it easy to adapt to any pipeline conditions!

Features	T66	T76
Pipe Diameter	4" (100mm)+	6" (150mm)+
Distance	Up to 1000' (300m)	Up to 1640' (500m)
Zero Radius Steering	●	●
2-Axis Pivoting Connector	●	●
Auto Tilt Compensation (ATC)	●	●
Location Transmitter		●
LISY Attachment (optional)		●
Elevator Attachment (optional)	Manual / Electric	Electric

AUTOMATIC TILT COMPENSATION (ATC)

One of the most unique technical features that IBAK steerable tractors provide is ATC - Automatic Tilt Compensation. An internal sensor recognizes when the tractor is beginning to climb the pipe wall and will automatically steer the tractor back to the center of the pipeline. This dramatically reduces the chances of time consuming and expensive repairs caused by flipping over during operation.

HEAVY BY DESIGN

Why should a tractor be heavy? Traction is only achieved by friction between the contact surface (wheel) and the pipe wall. Our systems pull longer distances and through slippery lines because we build them out of dense materials that provide the maximum traction.

Automatic Tilt
Compensation

T76 elevators are remotely powered allowing you to raise your camera up out of water or debris!
